

# Parrot<sup>®</sup> Zik 2.0

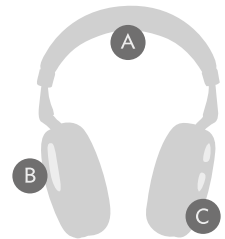

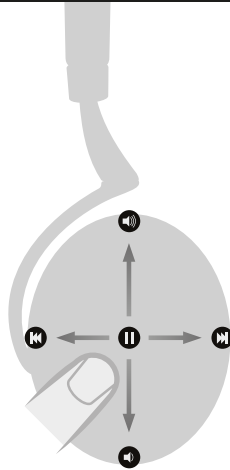

The world's most advanced headphones

## Adaptative Noise Control

Adaptative Noise Cancelling: With 6 active microphones, the outside noise is cancelled out by opposing sound waves (anti-noise) in order to create an uncompromising listening comfort.

Street mode: Disturbing noise is captured and re-injected to increase the natural isolation from the earpad: listen to your music and stay connected to the world.

## Beautifully engineered with superior materials

A: Thick, padded headband for maximum comfort.

B: Microphones that capture surrounding sound and provide high audio quality during calls.

C: Ear pads that fit around your ears.

## Smart Touch Control

The Parrot Zik 2.0 is fitted with an ultra-intuitive touch control panel on the right ear cup: when connected via Bluetooth, slide your finger vertically to adjust the volume and horizontally to skip to the previous or next track. The Head Detection sensor is a capacitive component discreetly integrated into the ear pad: take your Zik 2.0 off and the music pauses automatically!

## HD Telephony

High definition Hands-free calls via Bluetooth.

Compatible with HD Voice Technology.\*

Text To Speech: to hear caller's name.

Voice Recognition: to initiate a call.

Combined with the use of a double microphone, the bone detection sensor detects and analyses the vibrations of the jaw in order to detect only your words and remove any background noise.

\*HD Voice needs to be supported by your smartphone and the network

Parrot Zik 2.0  
Free App

The Parrot Zik 2.0 app is compatible with smartphones and tablets. It allows you to easily adjust the settings of your headphones and tune the sound to your own taste. Available on iOS and Android.

## Audio presets

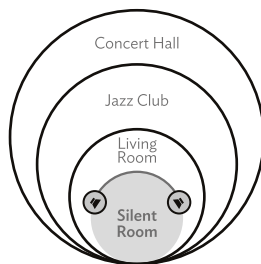

Parrot Zik 2.0 offers the possibility to accurately personalize the audio restitution. Users can download Presets and listen to music as intended by the artist.

### Producer Mode

With the Producer mode, audio settings are customisable and can be shared with other Parrot Zik 2.0 users. Recreate a true to life listening experience with the 5 bands full parametric pro-equalizer as well as spatialization effect.

### Concert Hall effect

The Parrot Zik 2.0 is designed around a powerful processor that spatializes sound and recreates the acoustics of different rooms/venues.

**Don't stop the music**  
Battery lasts up to 18 hours in flight-mode on a single charge. (Noise reduction activated & line-in mode)

### Specifications:

- 40 mm Neodymium drivers
- Digital Analog Converters integrated 192kHz – 24 bits
- Powerful DSP algorithms
- Built-in NFC technology
- Frequency response: 20Hz – 22kHz
- Capacitive touch panel
- Bluetooth 3.0 supported profiles: AD2P, AVRCP, HFP, HSP, OPP and PBAP
- Hands-free
- Battery Li-Ion 830 mAh
- Battery life:
  - Flight mode (ANC activated + line-in): 18 hours
  - Eco mode (ANC activated + line-in + spatialization effect): 7 hours
  - Regular mode (ANC activated + Bluetooth + spatialization effect): 6 hours

### Dimensions:

- 175mmW x 202mmH x 39,3mmD
- Weight: 270g
- USB Micro USB cable: 1m
- Mini-jack cable: 1,30m

### Box content:

- 1x Zik 2.0 headphones, 1x 830mAh Lithium-ion battery, 1x Line-in cable, 1x USB/Micro-USB charging & updating cable, 1x Carrying pouch, 1x Quick start guide

### Available colours:

- Parrot Zik 2.0 Black, Parrot Zik 2.0 Yellow, Parrot Zik 2.0 Orange, Parrot Zik 2.0 Mocha, Parrot Zik 2.0 Blue, Parrot Zik 2.0 White
